Our global manufacturing footprint

Datwyler's global manufacturing footprint for the healthcare industry.
Datwyler is where its customers are.

Datwyler offers a wide range of compatible packaging components to be used in every drug manufacturing application.

Datwyler is a **leading specialist for system-critical elastomer components** and a key player in **the global healthcare market**.

Our state-of-the-art solutions for drug packaging and medical devices, build on **over 100 years of experience**.

Within our healthcare offering, we provide **a unique range of products and services**, including the most advanced elastomer formulations, coatings, aluminum seals, and processing technologies.

With our global production footprint, we make an important contribution to our customers' reliable supply chain.

Partnering with the world's top pharmaceutical and medical companies, we are a vital link and stand by our mission **to improve patients' lives**.
